Skin: Wash skin with plenty of water while removing contaminated clothing. Get medical attention if irritation develops. Wash clothing before re-use.

Ingestion: Do not induce vomiting unless directed by a medical professional. Rinse mouth with water and give one glass of water to drink. Never give anything by mouth to an unconscious or convulsing person. Get medical attention if symptoms develop.

Inhalation: Remove victim to fresh air. If breathing is difficult or irritation persists, get medical attention.

Most Important Symptoms: May cause slight eye irritation. May cause slight skin irritation on prolonged contact. Inhalation of vapors may cause slight respiratory irritation.

Indication of immediate medical attention/special treatment: No immediate medical attention should be required.

5. FIRE FIGHTING MEASURES

Suitable (and Unsuitable) Extinguishing Media: Use water spray, foam, dry powder or carbon dioxide to extinguish.

Specific Hazards Arising from the Chemical: When heated to decomposition, product may emit oxides of carbon and hydrocarbons.

Special Protective Equipment and Precautions for Fire-Fighters: Firefighters should wear positive pressure self-contained breathing apparatus and full protective clothing. Cool fire exposed containers and structures with water.

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment, and Emergency Procedures: Avoid breathing vapors or mists. Avoid contact with eyes, skin and clothing.

Methods and Materials for Containment and Cleaning Up: Dike and collect liquid or solidify with an absorbent, noncombustible material and place in labeled containers for disposal. Remove spills promptly. Wash spill area. Avoid releases to the environment. Report spills and releases as required to appropriate authorities.

7. HANDLING AND STORAGE

Precautions for Safe Handling: Avoid contact with the eyes, skin and clothing. Avoid breathing vapors or mists.

Do not reuse containers. Empty containers that contain product residues and contaminants that can be hazardous. Follow all SDS precautions when handling empty containers.

Conditions for Safe Storage, Including Any Incompatibilities: Store in a cool, dry, well-ventilated area away from heat and incompatible materials. Protect from physical damage. Store at room temperature.

2,2,4-trimethyl-1,3-pentanediol monoiso-buturate	None Established

Engineering Controls: Use with general or adequate local exhaust ventilation to maintain exposure below occupational exposure limits.

Respiratory Protection: In operations where exposure levels are exceeded, an approved respirator with an organic vapor/dust/mist cartridge or supplied air respirator should be used. Respirator selection and use should be based on contaminant type, form and concentration. Follow applicable regulations and good Industrial Hygiene practice.

Skin Protection: Wear impervious gloves to avoid prolonged skin contact.

Eye Protection: Chemical safety goggles or safety glasses with side shields are recommended to prevent eye contact.

Other: Impervious coveralls, apron and boots are suggested to prevent prolonged skin contact and contamination of personal clothing.
